## Objective

---

I am an IT student with a strong foundation in Networking, JavaScript, HTML and I am seeking an opportunity to apply my technical skills and gain hands-on experience in a professional environment. I am a fast learner, adaptable and eager to solve real world challenges. Furthermore, I am looking forward to contributing to your team whilst furthering my knowledge in the industry.

## Project

---

### CPUT clinic network infrastructure

03/24

- We were designing a network infrastructure for the CPUT clinic as part of a classic project and this includes setting up core, servers, routers, switches as well as network security measures such as firewalls. The purpose of this project is to make the campus clinic more accessible online as well as off campus.
